

Home for the Holidays

invites you to participate in Community Warehouse's Home for the Holidays Campaign. Together we can provide the basics that turn a family's new housing into a home -for the holidays and every day!

Community Warehouse serves survivors that are transitioning into a new life. With little more than a place to live, they cannot afford to purchase simple essential items even at thrift store prices. It is the only organization that provides donated furniture and basic household items - at no cost to the client!

The Warehouse serves over 3,000 households per year in the greater Portland metro area and Southwest Washington, but there are hundreds of families on the waiting list.

Getting involved is easy - just bring your gently used household items to collection containers Located at:

These are the items they need:
